

## ENWIS Comotor - Brokerage System

We know that the recycling portion of our waste businesses are growing and that leveraging our investments in our valued commodities is the difference between making money and losing our shirt. The ITA Dynamics team is proud to announce the first brokerage system for waste management in the Microsoft Dynamics NAV family of products, allowing brokers to become part of the growing the IT Eco-System from within one system.

Brokers have full visibility into the sales and inventory streams of recycling material allowing for analysis of where an organization is long or short, both financially and from an inventory standpoint, with full vision into both Production and Warehouse Management for blending, inventory valuation, and analysis.

### **Comotor allows for:**

-  Contract Management
-  Pricing & Order Management
-  Online connectors to all Commodity Exchanges
-  Settlement & email integration
-  Claim Registration and Trading Calendars
-  Quantity Planning, Freight Tariffs and Sea Container Process
-  Risk Management
-  Hedging (Forex, Futures & Options)
-  Document Management
-  MS Dynamics CRM Integration
-  And Much more
